script.js

```javascript
const playButton = document.getElementById("playButton");
const videoModal = document.getElementById("videoModal");
const closeButton = document.querySelector(".close-button");
const videoPlayer = document.getElementById("videoPlayer");

playButton.addEventListener("click", () => {
    videoModal.style.display = "flex";
    videoPlayer.play();
});

closeButton.addEventListener("click", () => {
    videoModal.style.display = "none";
    videoPlayer.pause();
});

window.addEventListener("click", (event) => {
    if (event.target === videoModal) {
        videoModal.style.display = "none";
        videoPlayer.pause();
    }
});
```
